

RISK MANAGEMENT POLICY

Introduction:

Risk management is attempting to identify and then manage threats that could severely impact or bring down the organization. Generally, this involves reviewing operations of the organization, identifying potential threats to the organization and the likelihood of their occurrence, and then taking appropriate actions to address the most likely threats.

The Ministry of Corporate Affairs, Government of India has also accepted the concept of Risk Management and its relevance to the smooth functioning of the corporate sector in India and has therefore introduced a specific provision on Risk Management under paragraph (II) (C) of Corporate Governance voluntary guidelines, 2009

Risk Management

i). The Board, its Audit Committee and its executive management should collectively identify the risks impacting the company's business and document their process of risk identification, risk minimization, risk optimization as a part of a risk management policy or strategy.

ii). The Board should also affirm and disclose in its report to members that it has put in place critical risk management framework across the company, which is overseen once every six months by the Board. The disclosure should also include a statement of those elements of risk, that the Board feels, may threaten the existence of the company.

It has therefore become mandatory for the listed Companies to prepare a comprehensive framework of risk management for assessment of risks and determine the responses to these risks so as to minimize their adverse impact on the organization.

Risk Strategy:

Medicamen recognizes that risk is an integral and unavoidable component of business and is committed to managing the risk in a proactive and effective manner. The Company believes that the Risk cannot be eliminated. However, it can be:

- Transferred to another party, who is willing to take risk, say by buying an insurance policy or entering into a forward contract;
- Reduced, by having good internal controls;
- Avoided, by not entering into risky businesses;
- Retained, to either avoid the cost of trying to reduce risk or in anticipation of higher profits by taking on more risk, and;
- Shared, by following a middle path between retaining and transferring risk.

Risk Management Framework

Objectives must exist before management can identify potential events affecting their achievement. Enterprise risk management ensures that management has in place a process to set objectives and that the chosen objectives support and align with the entity's mission and are consistent with its risk appetite.

The Objectives of the Company can be classified into

Strategic:

- Organizational Growth.
- Comprehensive range of products.
- Sustenance and Growth of Strong relationships with dealers/customers.
- Expanding our presence in existing markets and penetrating new geographic markets.
- Continuing to enhance our industry expertise.
- Enhance our capabilities through technology alliances and acquisitions.

Operations:

- Consistent Revenue growth.
- Consistent profitability.
- High quality production.
- Further develop Culture of Innovation.
- Attract and retain quality technical associates and augmenting their training.

Reporting:

- Maintain high standards of Corporate Governance and public disclosure.

Compliance:

- Ensure stricter adherence to policies, procedures and laws/ rules/ regulations/ standards.

In principle, risks always result as consequence of activities or as consequence of non- activities. Risk Management and Risk Monitoring are important in recognizing and controlling risks. The entirety of enterprise risk management is monitored and modifications made as necessary.

Risk mitigation is an exercise aiming to reduce the loss or injury arising out of various risk exposures Medicamen adopts, systematic approach to mitigate risks associated with accomplishment of objectives, operations, revenues and regulations. The Company believes that this would ensure mitigating steps proactively and help to achieve stated objectives.
